DEATH FOLLOWS ACCIDENT

MASS OF IRON DISTRESSINGLY CRUSHES OUT A LIFE.

Death From Asthma Follows the Fortieth Anniversary of a Marriage.

Harry E. Hoffman, son of Mr. and Mrs. J. Aaron Hoffman of Butler township, met death from a distressing accident. He was employed at the Central Iron and Steel Company of Harrisburg. He ran an electric crane during the day. On Monday of last week he was on his crane and a heavy bar of iron shot through the rollers some distance away and struck his crane. The crane was broken. He was hurled to the ground and a piece of iron from the broken crane weighing ten tons struck his arm and leg, crushing the limbs. The workmen removed the mass of iron and he was tenderly carried to the Harrisburg Hospital. He lost a great deal of blood but was fully conscious. At the hospital he gave a friendly good-bye to his associates and seemed to realize that his injury was beyond human aid to help. He died the same evening aged 22 years, 11 months and 6 days. He was born and raised in Butler township and was the only surviving child of his parents. He helped at the farming and when his father bought a threshing machine he ran it for him. A dozen or more years ago he married a daughter of George Oyer of Franklin township. About four years ago Mr. and Mrs. Harry E. Hoffman moved to Harrisburg to get into some less arduous work than running a threshing machine. He found congenial work with the Central Iron and Steel Company, becoming a valued employee. Only last fall he bought a home in Harrisburg, a house just recently erected and Jan. 1 housekeeping began in the new home. The body was brought home on last Wednesday. Thursday the funeral was held. Rev. A. A. Kelly, his Harrisburg pastor, conducting the services. Interment was at Ardenville. The young man had the respect of everyone who knew him. He leaves a wife and a son 11 years old, his father and mother, who have the sympathy of their many friends in their sorrow.

Joseph Orndorff, an aged citizen of Harney, formerly of this county, died at the home of Mrs. Kemper Harney, on Saturday, Feb. 17. Funeral services were conducted by Rev. W. G. Minick on Tuesday of last week in the Lutheran church at Harney and interment was made in Mountain View cemetery.

Mrs. Lydia Ann Maria Waybright, wife of ex-Gov. A. M. Waybright, departed this life on the morning of the 16th, aged 93 years, 7 months and 4 days. For years the deceased had been afflicted with asthma. On the day before she died the 40th anniversary of their marriage was observed. She was taken sick a few days before and on that day seemed to be much improved. During that night, however, she grew worse, and peacefully passed away on Friday morning. Soon after her marriage to Mr. Waybright she transferred her membership from Maryland to the Mt. Joy church. In 1860 when the congregation at Harney was organized, she with many others were dismissed to enter into that organization. Mrs. Waybright was a devoted Christian woman, kind and loving as a wife and mother, one who will be missed not only in the family but in the community. Funeral services were conducted by her pastor, Rev. W. G. Minick, in the Lutheran church at Harney on Monday, the church being filled with relatives and friends. In the same hope of a glorious resurrection her body was laid to rest in Evergreen cemetery.

sides her husband J. O. Mickley she is survived by the following children: G. Oliver Mickley, Misses Daisy, Katie and Janie Mickley and J. Roy Mickley all at home, and an adopted son Edward Mickley of Ashtown, Ill. and brothers and sisters as follows: Samuel, Edward and George Singley of near Fairfield, Mrs. Jane Stoops of Waynesboro, Pa., Mrs. Lucinda Baker and Mrs. Catharine Brooke of Kansas City, Kansas.

MARRIAGES.

Weaver—Fidler.

The home of Mr. and Mrs. Hiram Rupp of Reading township, was the scene of a happy gathering on Thursday, Feb. 22. During the forenoon invited guests began to assemble from far and near to witness the marriage ceremony of Laura C. Fidler, of New Chester to J. R. Weaver, of Hunters-town. The ceremony took place at 12 o'clock, noon, in the presence of about 35 guests. Rev. H. W. Bender of the Lutheran church officiated. After the ceremony the company were invited to follow the happy bride and groom who lead the way to the dining room where a sumptuous repast was served. The contracting parties are well known in New Chester and are held in high esteem. The bride by her courteous manner and amiable disposition has won many true, devoted friends. The groom is a stone cutter by trade and has attained considerable proficiency in his chosen vocation. We most heartily wish these excellent young people a long and happy voyage on the sea of matrimonial bliss. Among the guests present were the following: Frank Echolz and family, Daniel Fidler and wife, Jos. Martin and wife, Jos. Weaver and family, O. F. Neely and wife, Henry Fidler and wife, M. O. Brane and wife, Mrs. Caroline Greener, Mrs. Massena, Misses Sophia Fidler, Nettie Fidler, Blanch Melittre, Mary Gross, Irene Martin, Henry Rupp, Wm. Weaver, Robert Weaver, Gilbert Rupp, Wilbert Fidler, Rev. H. W. Bender and wife.

Rossiter—Rindlaub.

On Feb. 17 at Gettysburg by Rev. C. P. Bastian, Charles F. Rossiter of Claremont and J. Gertrude Rindlaub of Gettysburg.

Swope—Sanders.

Hayward S. Swope of York, son of Mr. and Mrs. Wellington J. Swope of near Bonnycastle, and Miss Anna Sanders of Hanover, were married last Wednesday by Rev. M. J. Roth of Hanover. A reception was held at the groom's home Thursday evening. The groom is a fireman on the N. C. R. R. and young couple will live in York.

Burgner—Criswell.

On Feb. 27 at Gettysburg by Rev. Dr. J. A. Clutz, Geo. W. Burgner of Lebanon and Naomi Grace Criswell of this place.

Mystery of Lerew Shooting Unfathomed.

District Attorney Keith has been informed that the condition of Cornelius Lerew, at the Chambersburg Hospital with gun shot wounds in head is not as favorable as at first. Mr. Keith has visited Lerew and has seen Wagaman with whom Lerew claims to have been when shot. Both men adhere to the statement that they were together and that Lerew was shot from ambush. They suggest names. The whole country has been scoured for any clue as to who did the shooting or where the men were the night it occurred but the matter is shrouded in much darkness.

—Miss Anna Brinkerhoff of Philadelphia, an experienced milliner, will assist Mrs. W. H. Wiernman in Spring work.

TWO RAILROAD ACCIDENTS

CONDUCTOR GARVIN AND BAGGAGEMAN CLAY INJURED.

John Griffie, Section Hand on W. M. R. R., Instantly Killed Monday Morning.

An angry accident happened on the Reading railroad in this place last Wednesday. Some one blundered and as a result two men are seriously injured. The baggage car struck the first of the coal cars. The force was so great as to force rear truck of the baggage car against the other truck, smash the whole end of the car into knickling wood and tear several yards out of the coal car.

Conductor Garvin was thrown to floor of the mail car and was probably saved by the iron work which was all twisted and bent over him. The coal car was loaded with pea coal and this pointed over Mr. Garvin until but a small part of his face was visible. Baggageman Clay was hurled out of the wreck to the ground. Their cries for help quickly brought men from the engine house and other points. Mr. Garvin was removed from the wreck to his home. Dr. H. M. Hartman upon examination discovered that several ribs were broken, a severe cut on his right shoulder and a long bruise across his abdomen.

Baggageman Clay was taken to the engine house. Drs. Stewart and Dalbey found that both of his legs had been broken above the knees and that he was severely cut and bruised. The physician put his limbs in splints, bound him up and he was placed on a car and taken by special train shortly after midnight to a Harrisburg hospital. Mr. Garvin has readily improved and latest reports are that he is very much better. The second accident resulted in the death of a man. The fast mail on the main line of the Western Maryland R. R. was sent down the Gettysburg division early Monday morning, the main line being blocked by some wreck. The train went through town about 7 a. m. The section gang under W. J. Mahanah left Granite station about the same time, a portion coming towards town on a hand car and another portion going toward Golden's Station. The party on hand car had reached the Mizell farm formerly Buehler farm, when the express came around a curve. The hands all jumped. John Griffie landed on the track. Before he could get out of the way, the express struck the hand car and Griffie, and he was terribly mangled, death being instantaneous. He was a young single man aged 34, living at Hunterstown. The section crew are supposed to look out for all trains, regulars and extras.

The Piano of Quality.

It is the quality of the Weaver Piano that is giving it supremacy. If you lay aside all former notions and judge the Weaver Piano purely on its merits you will learn that it is one of the most perfect pianos made.

Magnificent Gibson Drawing Free.

A series of ten articles on pen and ink drawing, illustrated with pictures by Charles Dana Gibson, is the next announced feature of the Sunday North American. The articles, prepared by experts, will be published in the body of the paper.

The Gibson drawings, which illustrate will be sent in the form of special supplements. Each picture will be printed on heavy paper in ball-point back on a delicate light background. Each drawing is 10 by 15 inches in size, and is ready for mounting and framing.

There will be ten articles, each carrying a Gibson supplement to illustrate it. The first subject is "The Weaker Sex Under the Microscope." This picture shows Gibson at his best, and contains four heads of typical "Gibson girls."

The demand for the Gibson picture is certain to be unusually strong, and the reader who wants all the picture supplements and articles should subscribe for ten weeks and secure them. The publishers report an advance demand the picture by that created by the announcement of any special feature.

Curious Phenomena.

Several months ago a slight smoke was seen to come out of the ground near the bridge over the Tiber several hundred feet west of the Reading depot. The railroad track from the bridge toward depot is built upon a bank of cinders. For a time no attention was paid to the smoke. Later the railroad people carried out every suggestion that has occurred to them to stop the smoke. The bank has been drenched with water, holes dug and water poured into them but the smoke was not abated. The smoke in the many months it has been observed has slowly traveled toward the depot. It is thought the condition will burn itself out when the end of the bank of cinders is reached.

Lost a Finger.

Howard Ridinger, joiner in the Eagle Furniture Company, while at work at his machine on Monday had a finger on the left hand caught in the machinery and so crushed and lacerated that amputation of the entire finger had to be made.

Good Way to do Business.

When one can buy gold dollars for fifty cents, it is a good time to purchase.

In offering a 50 cent bottle of Dr. Howard's celebrated specific for the cure of constipation and dyspepsia at 25 cents, I, M. Buehler, am giving one of the greatest trade chances ever offered to the people of Gettysburg.

Even though offered at half price for introductory purposes, the specific is sold under a guarantee to cure or the money will be refunded.

If food does not digest well, if there is gas or pain in the stomach, if the tongue is coated and the breath bad, if there is constipation and straining, Dr. Howard's specific will cure you. If it does not, you have Druggist Buehler's personal guarantee to return your money.

This remarkable remedy comes in the form of tiny granules, and can be carried in the vest pocket or purse. It is very popular in New York City, and it is not unusual to see someone after a meal at one of the large hotels or restaurants, take a dose of this specific, knowing that it will prevent the uncomfortable feeling which frequently follows a hearty meal.

Dr. Howard's specific gives quick relief and makes permanent cures of constipation, dyspepsia, and all liver troubles.

Letter to Wm. H. Frey.

Gettysburg, Pa.

Dear Sir: Have you found this out? You need less of Devoe lead-and-zinc for a job than of anything else: less gallons; less money.

M. A. Thomas, painter, Lynchburg, Va. has found it out; he writes: "The first job I did with your paint I estimated 27 gallons; had 12 gallons left over. Since then I have not used any other kind of paint but Devoe lead-and-zinc; I recommend it to all my customers. When I commence a job, I tack up a card reading as follows: M. A. Thomas, contractor: Devoe Paint." Putting it on costs two or three times as much as the paint. Have you found this out? You can paint Devoe in less time; less money; less money.

Have you found this out? Devoe wears longer than anything else. You don't object to long time between jobs. Your customer likes it. And you like what he likes. It keeps your customers.

Yours Truly

SCALY ECZEMA ALL OVER BODY

Eruptions Appeared on Chest, and Face and Neck Were All Broken Out—Scales and Crusts Formed—How Lady Has Great Faith in Cuticura Remedies for Skin Diseases.

ANOTHER WONDERFUL CURE BY CUTICURA

"I had an eruption appear on my chest and body and extend upwards and downwards, so that my neck and face were all broken out; also my arms and the lower limbs as far as the knees. I at first thought it was prickly heat. But soon scales or crusts formed where the breaking out was. Instead of going to a physician, I purchased a complete treatment of the Cuticura Remedies, in which I had great faith, and all was satisfactory. A year or two later the eruption appeared again, only a little lower; but before it had time to spread I procured another supply of the Cuticura Remedies, and continued their use until the cure was complete. It is now five years since the last attack, and have not seen any signs of a return. I have taken about three bottles of the Cuticura Resolvent, and do not know how much of the Soap or Ointment, as I always keep them with me; probably one half dozen of each.

"I decided to give the Cuticura Remedies a trial after I had seen the results of their treatment of eczema on an infant belonging to one of our neighbors. The parent took the child to the nearest physician, but his treatment did no good. So they procured the Cuticura Remedies and cured her with them. When they began using Cuticura Remedies her face was terribly disfigured with sores, but she was entirely cured, for I saw the same child at the age of five years, and her mother told me the eczema had never broken out since. I have more faith in Cuticura Remedies for skin diseases than anything I know of. I am, respectfully yours, Emma E. Wilson, Liscomb, Iowa, Oct. 1, 1905."

Complete External and Internal Treatment for Every Form of Eczema, from Pimples to Scrofula, from Infancy to Age. THE SPRING ELECTIONS

SOME UNUSUAL RESULTS CONNECTED THEREWITH.

Working Out Road Tax Abolished in 3 Townships—Miss Elsie Slaybaugh a School Director.

The spring elections are a thing of the past. Gettysburg is Republican with a Republican Burgess and Town Council. The election over the county presents some very unusual features. The question of abolishing the working out road tax was fought out in five townships. No one was singular that it would carry in any to such a vote. Many believed it was worth a vote to try it. To the surprise of many the citizens of Germany, Menallen and Strasburg townships will no longer have a chance to work out their road taxes. The same will be paid in cash and the supervisors will have the cash to pay to the road masters for road building. These townships are going to be watched closely and if it works all right, many townships will be ready to follow suit next year. Cumberland and Hamilton townships voted against abolishing the work tax. Fairfield agreed to a borough water plant by a vote of 2 to 1 in favor of the project. Among things out of the usual order were the following: In Abbottstown the Republican candidate for the position of Burgess withdrew and tickets went out without a name from that party. But they went to work, wrote in a name and he came within 5 votes of the winner. In another borough a candidate tried to defeat himself for a certain office and tied himself in his own party but five Democrats elected him. In Arendtsville Democrats and Republicans put up a union ticket. Objections came later and a Lincoln ticket was named, the only district in county with a Lincoln ticket. The figures tell an interesting tale in many places. Almost every officer in Tyrone is elected by majorities running from 1 to 5. The youngest borough in the county, Butlerville, has the proud distinction of having elected to the office of School Director, Miss Elsie Slaybaugh, the first woman elected to any office in the county at a regular election.

In the following list the offices have been designated by initials, and in boroughs the first T C means Town Council and second T C Tax Collector, while in townships the T C stands for Tax Collector. The following are the other abbreviations: B Burgess, S D School Director, J P Justice of the Peace, A Auditor, H C High Constable, J Judge of Elections, I Inspector, C Clerk, and S Supervisor.

Consumption

There is no specific for consumption. Fresh air, exercise, nourishing food and Scott's Emulsion will come pretty near curing it, if there is anything to build on. Millions of people throughout the world are living and in good health on one lung.

From time immemorial the doctors prescribed cod liver oil for consumption. Of course the patient could not take it in its old form, hence it did very little good. They can take

SCOTT'S EMULSION

and tolerate it for a long time. There is no oil, not excepting butter, so easily digested and absorbed by the system as cod liver oil in the form of Scott's Emulsion, and that is the reason it is so helpful in consumption where its use must be continuous.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

THE CONGO FREE STATE

ALLEGATIONS OF MARK TWAIN DISAPPROVED.

Four Baptist Ministers and a United States Official Give Light on the Subject.

The attention of our people has recently been called to The Congo Free State. We clip from "Catholic Standard and Times" on our exchange table the following article, containing verbatim evidence from high Protestant sources on the subject:

Interest in the Congo question is widespread in our country and increasing. England has its eye on the Congo. The marvelous development of this great country under Belgian administration has made it a coveted prize for English greed. England cannot swoop down upon it and seize it without alleging a reason. She resorts to her old tactics of trumping up charges against the power which she seeks to dislodge. Her emissaries charge cruelty and misadministration, and seek to arouse sympathy in America. Missionaries who have failed in their work in the Congo have, by false charges, endeavored to form public opinion against the Congo administration, with a view to secure action by Congress in sympathy with England's scheme of spoliation.

The charges have been disproved by the testimony of witnesses of the highest character and integrity, such as: Sir H. H. Johnson, English commissioner to the Uganda; Mr. Monem, ex-American consul; the Rev. George Grenfell, the Rev. W. Holman Bentley, the Rev. W. H. Leslie, the Rev. W. Lawson Forfeit, Baptist missionaries; Harry Guinness, M. D., J. Gustavus Whiteley, of the Institute of International Law; Mr. Pickersill, British consul; Major H. H. Giboney, Captain H. D. Bell, R. A., Mr. Kemper Vass, an English civil engineer; Major Powell Cotton, John Henderson, Alexander Davis, W. R. Stewart and others.

From the abundant testimony of reliable witnesses I will select four Baptist missionaries who have lived in the Congo and J. Gustavus Whiteley.

A Baptist, the Rev. George Grenfell, whose long residence in the Congo enabled him to give an opinion, says:

"It is to be regretted that in the recent 'revelation' made by certain missionaries false charges have been mingled with accusations only comprehensible by taxing their authors with inexcusable unstableness.

"I am one of the rare Europeans actually residing in Congo who was acquainted with this country before the State was established, and who can compare the situation with the present one. For this reason I wish to state that I most sincerely appreciate the advantages attending the establishment of a civilized government, and I proclaim that I am more and more grateful for the order and liberty actually existing."

In a letter to Mr. Leemitt, a Swedish officer, in May, 1903, Mr. Grenfell speaks of having been "much struck by the order which has been established and by the real progress accomplished. The progress that has been made is nothing less than marvelous."

The Rev. Lawson Forfeit, an English Baptist missionary, writing to the commissary general of New Antwerp, March 14, 1903, says:

"The condition of the natives is much improved. All the villages of the district can be visited in absolute safety, and I beg to congratulate you on the tranquility of the district of which you are commissary general."

The Rev. W. Holman Bentley, the head of the Baptist missions in the Congo, has on several occasions expressed favorable opinions as to the progress effected in the Congo State, as, for example:

"Being one of the founders of the Baptist missions in the Congo, where I have resided since Mr. Stanley's arrival in 1879, the new year's advent drew my attention to the immense progress realized in this country during this brief period of twelve years. The Belgians may well be proud of the part which their small country has played in the opening up of Africa. The burning question of the drink traffic has been dealt with very effectively by the Congo State. The sale of spirituous liquors to the natives has been strictly prohibited over nine-hundred miles of its wide area. We have good reasons for knowing that this restriction has been effective."

The New York "Sun" referred in September, 1903, to an article written by the Rev. W. H. Leslie, of the American Baptist Missionary Union, as follows:

Mr. Leslie refers to the degrading degradation of the Congo people twenty years ago. He speaks with much enthusiasm of the social and moral uplifting and industrial development within that twenty years. He says that the people are learning to work, are learning to read and write, are getting on their feet and are building

better houses. In other words they are gradually adopting the manners and customs of civilization.

I have quoted four Baptist missionaries who have labored for the Congo. All of them praise the work of the Congo Government.

I will add the testimony of another witness of the highest character and integrity, a layman, an American, Mr. James Gustavus Whiteley, of Baltimore, a member of the Institute of International Law, charged to represent on different occasions the government of the United States at several international congresses, and who is thoroughly conversant with the organization and administration of the Congo. He says: "It is unfortunate that so many false impressions about the Congo have been accepted without examination. One of the great achievements of the Congo State has been the suppression of the Arab slave trade. It is estimated that 100,000 natives were killed each year in the slave trade. I recently saw an erroneous statement to the effect that the slave trades are still carried on."

"Another prevalent error is in regard to the treatment of the natives by the officials. An impression has got abroad that there are many atrocities committed. There have been cases in which the natives have been maltreated by minor officials, but these are isolated cases, and are severely punished by the authorities. A commission for the protection of the natives was established by a decree of the government. This commission consisted of seven members, being three Catholic priests and four Protestant missionaries. Those who cry out against the Congo are a small band, and generally of small importance."

"The Congo State furnishes a model for civilization in new countries. A great work has been accomplished in equatorial Africa, and as a distinguished missionary said: 'Posterity will place the name of Leopold at the head of humane benefactors for the princely enterprise, perseverance and sacrifices contributed by him in such a cause.'"

The five witnesses whose testimony I have adduced are all Protestants. I have not quoted one Catholic witness. All bear testimony to the prosperity, advancement and improvement of the natives of the Congo under Belgian rule. Isolated cases of cruelty on the part of minor officers have been punished. We find a worse condition among the negroes of our own country, who are burned at the stake, hanged or shot to death and the perpetrators go unpunished.

The campaign conducted in England against the Congo dates from the time when the prosperity of the Congo State became affirmed. For years it was administered as it is now. When the State budget was only able to effect a balance by the subsidies of the King of the Belgians there was no complaint, but when the trade of the Congo took a marked development and the total exports rose from 10,000,000 francs in 1895 to 50,000,000 in 1902, the movement against the Congo was planned, and England planned it.

WALTER J. SHANLEY, Danbury Ct., February 10, 1906.

THE NAME "JOHN BULL."

It Was the Invention of the Sartrified Dr. Arbuthnot.

John Bull, the mythical personage supposed to represent the English people, was the invention of Dr. Arbuthnot in one of his satirical sketches ridiculing the great Duke of Marlborough. In the opinion of Dr. Johnson, Arbuthnot was "the first man among eminent writers in Queen Anne's time." He drew John Bull as the typical Englishman—a stout, red faced old farmer, far too complacent for comfort, choleric, but withal an honest and well meaning fellow. He clothed him in leather breeches and top boots, put a stout oaken cudgel in his hand and a bulldog at his heels and set him up for all time to serve as the representative Englishman.

He may have been not so bad a caricature in the days of Queen Anne, but today certainly there is much force in an English critic's remark that "he completely hides the Englishman of real life." The average Englishman of today is physically no stouter certainly than—probably not so stout as—the average American, and the stout cudgel and the bulldog are no longer apt symbols of the modern Britisher's disposition. He has lost the excessive pugnacity of his forefathers and is, above all, anxious to keep the peace with his Uncle Sam.—London Standard.

SILVER MINES.

The Way Not to Farm. These Deposits of Precious Metal.

The process of getting silver from the earth is very interesting. It is done by a process called the cyanide process, which is carried out in the following manner: The rocks, making up the mountains, are broken up into small pieces of about the size of a pea. These small pieces are then put into a large tank which they fill with water.

Sometimes the solution is given a new look, the water being got so far from it as to be so boiling by the heat of the fire. Then they rush down the hill, and the bits of metal are taken out. Naturally heat assists the performance of this operation.

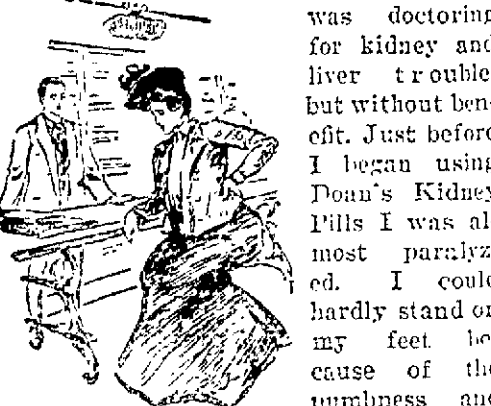

Now, when the stream is thus formed, personally flowing higher and higher, it is the ground, pass through a series of pipes in the rocks, where they deposit their bodies of silver. This is kept up for a great length of time—perhaps thousands of years—until the water is all used.

HAPPY WOMEN.

Wouldn't any woman be happy, After years of backache suffering, Days of misery, nights of unrest, The distress of urinary troubles, To find relief and cure? No reason why any reader Should suffer in the face of evidence like this:

Mrs. Almira A. Jackson, of East Front St., Traverse City, Mich., says: "For twenty years I was doctoring for kidney and liver trouble, but without benefit. Just before I began using Doan's Kidney Pills I was almost paralyzed. I could hardly stand on my feet because of the numbness and

lack of circulation. Had a knife been thrust into my kidneys the pain could not have been more intense. My sleep was disturbed by visions of distorted figures. The kidney secretions were unusually large and I was tortured with them all day long. I used seven boxes of Doan's Kidney Pills. The bloating and swelling I weighed 100 pounds and could step like a child and was relieved of the pain and the irregularity of my system. My circulation is good and I feel better in every way."

A FREE TRIAL of this great kidney medicine will be sent to any part of the United States, address: Doan-McBarn Co., Buffalo, N. Y. For a full drug list.

THE NEW AND ENLARGED EDITION OF WEBSTER'S INTERNATIONAL DICTIONARY

Excels in Vocabulary. It is the most useful in size and contents, judiciously selected to exclude corruptions of good usage, and to avoid unintelligible technicalities.

Excels in Arrangement. Each word begins a paragraph in its correct alphabetical place and is readily caught by the eye.

Excels in Etymology. These are complete and scientific, and embody the best results of philology. They are not scribbled or crowded into obscure places.

Excels in Pronunciation which is indicated by a leading with the diacritically marked letters used in the schoolbooks, the sounds of which are taught in the public schools.

NEW ROAD LAW.

Many people seem to have overlooked the fact that the new road law requires the supervisors to organize on the first Monday of March. On that day the three supervisors in every township are to meet, organize by choosing one of their number as chairman, another as secretary and an outsider as treasurer. On the same day they are to fix the percentage for the road tax in the coming year. The duplicate for taxes goes into the hands of the treasurer to collect. In townships where the tax is worked out or citizens are entitled to a chance to work out the tax, collection could not be made until that opportunity was given to work out the tax.

Attorney General Carson has filed an opinion deciding that the legislature did not intend that the supervisors should receive any compensation whatever, but may be allowed necessary expenses, such as meals, horse feed, etc. He further decided that a supervisor may work out his road tax under the work tax system, for it would be unfair to put him in a worse position than any of his neighbors.

A supervisor may not act or be employed as road master. While the act allows road masters for every five miles of road, yet the supervisors can divide up the townships and have no more road masters under the new law than there were supervisors under the old law. Road masters must be bonded, their wages fixed and many other details must be complied with. Supervisors should write to the Highway Department at Harrisburg, get copies of act and instructions and study them. It will make it easier to put the new law into force.

Pen Myers' Auction Sale.

The largest crowds that have attended auction sales for years filled to overflowing the Chambersburg street store of Penrose Myers on last Saturday. They were there for the many bargains to be had and to hear Mr. Kelly, the Chicago auctioneer. He disposed of a large amount of goods in a most entertaining manner and in a rapid fire order. Mr. Kelly is one of the most fluent talkers that ever made a jewelry sale in this place. His manners are polite and his endeavors to please are untiring. He has all the fascination of an Irishman about him. To hear his description of goods is in itself a treat not often to be had. He never tires by lingering on any article but knocks the goods down in quick order. Mrs. Benton Gilbert on Saturday received a beautiful silver handled umbrella. A beautiful present is given away every afternoon. The sale will continue every day this week at 2:30 and 7:30 p. m.

Spelling Bee No School.

In the case against Willis Applier a teacher, charged before Justice of the Peace V. H. Lilly with violation of the State Health Laws, which was heard Feb. 15 and decision reserved, decision was handed down on last Thursday Feb. 22.

The Justice deeming the case an important one had reserved his decision to have ample time to deliberate. Before giving his decision the Justice reviewed the case and said that upon due deliberation he believed the spelling class held by Willis Applier was not a school within the meaning of the act but was in the nature of a social gathering and for amusement. Therefore he would not be liable under the act. The Justice was of the opinion that Mr. Krug, the prosecutor was not to be reflected upon. He had said under oath that all will to any one hadn't dictated his actions, that he had instituted the proceeding because he believed as a Director of the School board it was his duty to do so and that it was wrong under the law to allow uneducated and unvaccinated children to be brought together at a spelling class.

Will Our Farmer Friends Get Wise?

It requires some extra effort to farm intelligently and get the most out of a crop after it has been produced. That it pays to use the CREAM SEPARATOR, MANURE SPREADER, CORN GRINDER, GASOLINE ENGINE, and other modern Implements, there is no question.

The "Success" Manure Spreader

is excelled by none. It fills every requirement and we can sell it to the farmer at such a reasonable price that considering the time and labor saved it will more than pay itself before he knows it.

J. I. CASE EDGE DROP CORN PLANTER. "Half the Crop is in the Drop."

This planter is so simple in operation and so accurate that by actual test it has dropped nearly 300 hills of 3 grains each without a skip, and the corn was not specially selected.

J. I. CASE CHECK ROW EDGE DROP CORN PLANTER

possesses all the good points known to the art. This planter is not an experiment, but has stood the practical test of field use and planted thousands of acres in a manner entirely satisfactory to many farmers. We are positive that any farmer who will try this planter will pronounce it superior to any other he ever used. We guarantee them to be satisfactory.

In addition to the above we handle the well-known Spangler Corn Planter, the Allbright Steel Beam Riding and Walking Cultivators, Pin and Spring Brake, Land Rollers, Steel and Wood, in two and three parts; the original Perry Spring-tooth Harrow and all kinds of Lever Harrows; and three, five and seven-tooth Cultivators.

Our full line of Machinery has been selected on the same principle. The wise farmer will come here and see our

HARROWS, CULTIVATORS, MOWERS, DEERING BINDERS, RAKES, ETC.,

before he buys either at a sale or from any other dealer, as there is more satisfaction in buying a guaranteed piece of machinery than to buy a second-hand implement.

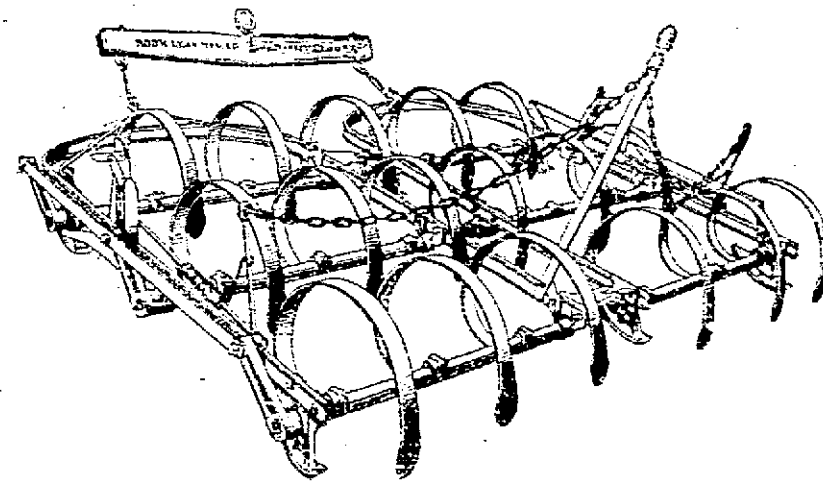

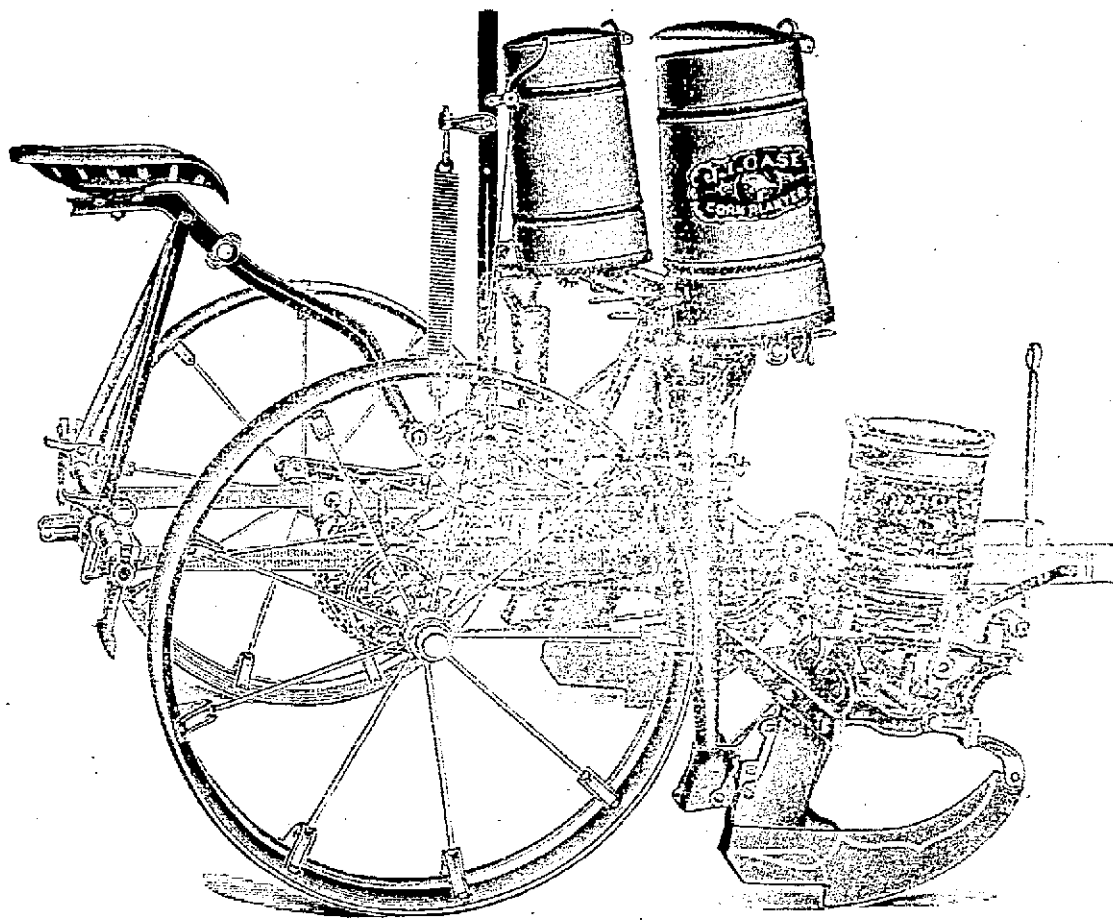

Repairs of any of these implements can be obtained either out of our stock or on short notice from the factory.

THE STUDEBAKER WAGON

which we handle exclusively, is the best farm wagon made.

HARNESS

of all kinds, Heavy Farm Harness, Double Harness, etc. We have a special set of Single Harness with Nickel Mounting which we want to introduce in this county and for this season only we have made the price \$8.99. You will find this harness to be all that we claim for it, a good durable well-finished set of harness.

PITTSBURG PERFECT FENCE

FARM PROFITS:

Every rod of good fence on your farm helps to cheapen the cost of your hogs, bees, sheep and horses

The better and greater the quantity of good fence on the farm the higher the price per acre

'THE STANDARD FOR QUALITY'

If you do not raise stock, the good fence protects your crops and insures largest possible returns. Thousands of investors are making fortunes by buying up so-called "run-down" farms, putting on a few buildings and good fences, then selling them for improved up-to-date farms. Good fences, well built, pay bigger dividends than good barns and good houses. Pittsburg Perfect Fence beats them all. We are the agents for it in Adams county.

SYRACUSE and OLIVER CHILLED PLOWS

We are also agents for the Syracuse and Oliver Chilled Plows and Repairs, Sharpless Tubular Cream Separators and Armour's Fertilizers.
